Cher client,

Nous sommes ravis de vous présenter notre nouveau catalogue, édition du 30<sup>e</sup> anniversaire de Locomoson dans le domaine de la quincaillerie décorative.

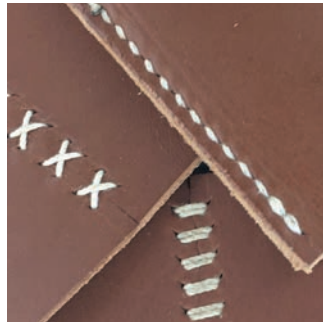

Aujourd'hui, en plus de son activité principale, la société a évolué, en parallèle, vers le travail sur mesure. Locomoson développe et affine ses compétences dans les domaines suivants:

- Atelier de réalisations métalliques sur mesure.
- Fabrication artisanale de poignées de meuble en cuir.
- Peinture de pièces métalliques par thermolaquage.
- Réalisation de pièces par impression 3D en résine, bois et métal.

Dans ce catalogue, vous trouverez notre gamme des produits "standard", pour la plupart en stock et visibles dans notre showroom à Wavre. Pour toute demande particulière, n'hésitez pas à nous contacter sur [info@locomoson.com](mailto:info@locomoson.com) ou +32 (0)10-88 89 68.

Nous vous remercions pour votre collaboration et nous espérons pouvoir continuer à contribuer à vos projets.

*L'Équipe Locomoson*

Beste klant,

Met groot plezier presenteren wij u onze nieuwe catalogus, de jubileumeditie van 30 jaar actief zijn op het gebied van decoratieve hardware.

Vandaag, naast haar hoofdactiviteit, heeft Locomoson zich evenals gericht op maatwerk. De firma blijft haar vaardigheden ontwikkelen en verfijnen op de volgende gebieden:

- Werkplaats voor metaalbewerking en realisaties op maat.
- Handgemaakte lederen meubelgrepen.
- Overschilderen van metalen stukken met poederlak.
- Vervaardiging van objecten door 3D-print in hars, hout en metaal.

In deze catalogus vindt u ons assortiment "standaard" artikelen, waarvan de meesten op voorraad zijn en zichtbaar in onze toonzaal in Waver. Voor speciale verzoeken, aarzel niet om ons te contacteren op [info@locomoson.com](mailto:info@locomoson.com) of +32 (0) 10-88 89 68.

Wij danken u voor uw medewerking en hopen steeds een bijdrage te kunnen leveren aan uw projecten.

*Het Locomoson-team*

**Vastzetten van schroefdraden**

Lors du serrage de toutes les vis "métriques" dont les vis Allen de fixation, il est indispensable d'utiliser une pâte de blocage anaérobie pour éviter le dévissage spontané par chocs ou vibrations.

Bij het vastmaken van alle metrische vijzen, waaronder de inbusbevestigingsvijzen, is zeer sterk aangeraden een anaërobe hars te gebruiken om het spontaan losvijzen door schok of vibratie te vermijden.

Lors du serrage de toutes les vis "métriques" dont les vis Allen de fixation, il est indispensable d'utiliser une pâte de blocage anaérobie pour éviter le dévissage spontané par chocs ou vibrations.

Bij het vastmaken van alle metrische vijzen, waaronder de inbusbevestigingsvijzen, is zeer sterk aangeraden een anaërobe hars te gebruiken om het spontaan losvijzen door schok of vibratie te vermijden.

Lors du serrage de toutes les vis "métriques" dont les vis Allen de fixation, il est indispensable d'utiliser une pâte de blocage anaérobie pour éviter le dévissage spontané par chocs ou vibrations.

Bij het vastmaken van alle metrische vijzen, waaronder de inbusbevestigingsvijzen, is zeer sterk aangeraden een anaërobe hars te gebruiken om het spontaan losvijzen door schok of vibratie te vermijden.

# Slidix

**Slidix**, est un système pour portes murales coulissantes en INOX 316 aux caractéristiques suivantes :

- Mécanisme apparent et totalement modulable.
- Applicable pour tous types de portes bois, verre....
- Adaptable à des situations existantes grâce aux diverses fixations et accessoires.
- Connexions rectifiées pour un fonctionnement silencieux et sans vibration.

INOX AISI 316

**Slidix** is een ophangstelsysteem voor schuifdeuren gerealiseerd in RVS 316 met de volgende kenmerken :

- Zichtbaar en volledig modulair.
- Voor glazen en houten deuren.
- Past zich aan de bestaande situatie aan dankzij verschillende soorten bevestigingen en accessoires.
- Perfect aangepaste verbindingen voor stille loop zonder vibraties.
